Kaiser Permanente

Provider Office Mock Up

Table of Contents:

Thank you for the invitation to build a mock-up of some of your Provider Office Typical components. We're excited to show you the innovative ways we've addressed the workspace and blended products together to support and enrich the new ways your medical professionals are working, both today and tomorrow.

Provider Office | 90 SF
Layout 2 VE – LH – Earth Palette

Key Features:

1 Migration SE Height-Adjustable Desk (36"d x 60"w x 22.6"-48.7"h) meets BIFMA ergonomic guidelines. Standard with obstruction-sensing technology; when the desk nears contact with an object, it will backtrack to relieve the collision. When activated, the programmable controller digital display will show the height of the desk. Desk has a T-leg base with PVC-free edge band. Universal Cable Management Tray mounts beneath the worksurface; its hinged design folds open for easy access and snaps closed. Cable riser attaches to the leg for cord concealment. SCS Indoor Advantage™ Gold certified.

2 Currency Enhanced Low Credenza (18"d x 30"w x 22½"h) has linear bar pulls on full extension drawer glides; file drawers are equipped with an integrated U-channel for hanging file folder frames. Box drawer includes two dividers. SCS Indoor Advantage™ Gold certified.

3 Currency Enhanced Tower (18"d x 15"w x 66½"h) is raised off the finished floor by 3" on white painted metal feet and is finished on all sides. Coat hook is on the same side as the door hinge. All storage aligns and creates a streamlined aesthetic. SCS Indoor Advantage™ certified and BIFMA level™ 2 certified.

4 Elective Elements Floating Shelves (8"d x 30"w) are painted metal, sleek and minimalist. End users have choice and control over display.

5 Elective Elements Tackboards (sizes vary) mount to the wall with a z-clip system and align above and below wall mounted floating shelves.

Key Features:

1 Migration SE Height-Adjustable Desk (29"d x 58"w x 22.6"-48.7"h) has a cable riser attachment to conceal all cords. The Universal Cable Management Kit attaches underneath the desk with a 6-plug surge protector strip mounted inside for all computer equipment to plug into.

2 Universal Fixed Return Worksurface (18"d x 54"w x 30"h) mounts to the spine panels with cantilevers.

3 Currency Enhanced Mobile Box/File Pedestal (18"d x 15"w x 23"h) can nest over the Migration SE legs and offers a pencil tray to hold small office supplies. The file drawer can accommodate front-to-back letter filing and side-to-side legal filing.

4 Answer Workstation Panels (various widths x 42"h) offer a wide range of material choices. Specified with tackable acoustical fabric and laminate skins to the floor on the exterior and tackable acoustical fabric skins on the interior with panel bases. Panels provide extensive support of power and data routing and access in the spine. SCS Indoor Advantage™ Gold certified, BIFMA Level 2 certified and Silver Cradle-to-Cradle Certified™.

5 Frameless Glass Stackers (various widths x 12"h) are 3/8" thick (with polished edges and corners) and are inset into the panel for additional safety and durability. They span across multiple panels for a seamless look.

Workstation Solution — Answer Family
4-Pack – Earth Palette

Answer has been a Kaiser Permanente solution for years. EPP-approved, the robust product offering includes Panel, Beam, Fence and Freestanding applications. Its structure allows for easy transformation to meet the needs of constant change, including height, functionality and technology. Materiality relates to the needs of each healthcare setting, allowing for durability, ease of cleaning, and component replacement.

For more detail on Answer and how we've applied it in your Systems standards, please visit our Kaiser Permanente mock-up website.

Making it work...

The right tools make an office **work**. Whether it's the right lighting for a teleconference, responsive monitor support, power and data use at your fingertips or the right storage, these options illustrated in the mock-up help make the job easier and improve ergonomics. More details on each at our Kaiser Permanente mock-up website.
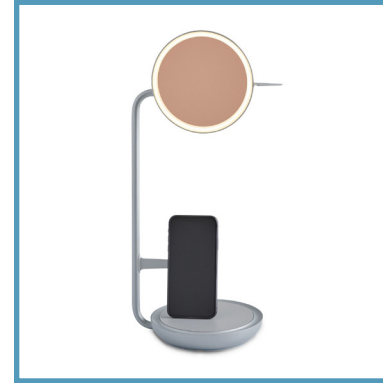

Steelcase Powerstrip Plus
Available in multiple configurations, providing various options for easily powering all types of devices above the worksurface.

CF Intro Dual Monitor Arm, C-Clamp
Available in both single and dual (shown) applications, CF Series Intro Monitor Arm features seamless precision to easily accommodate a wide variety of user preferences.

Eclipse Task Light
Allows users to both look and feel better during remote collaboration – no matter where they're working. By offering superior color performance and the ability to reposition the light where it's most needed. A built-in stand can host the user's phone.

Universal Mobile Pedestal
Standard with steel case and drawer interiors, and laminate drawer fronts. Ped is shown to represent the Universal line, offered as a cost savings idea (detailed on mock-up website) for all the Provider Offices and Workstation storage to replace the Currency Enhanced laminate storage specified.

Steelcase Flex Dock
Featuring Thunderbolt™ 4 technology, it integrates with Steelcase CF Series monitor arms to provide immediate connection to power, data and display while keeping cords and cables out of sight. Step up with a laptop, plug in and you're on.

Wynd Essential Purifier
Portable personal smart air purifier's airflow system generates over 9 liters of clean air per second. The Essential's rapid purification can keep a 100 sq ft area purified.

Flex Baskets
Can be used for personal items and to easily store and transport anything your professionals need to personalize and organize their spaces. Also available in a smaller cup shape for markers, sticky notes and other collaboration tools.
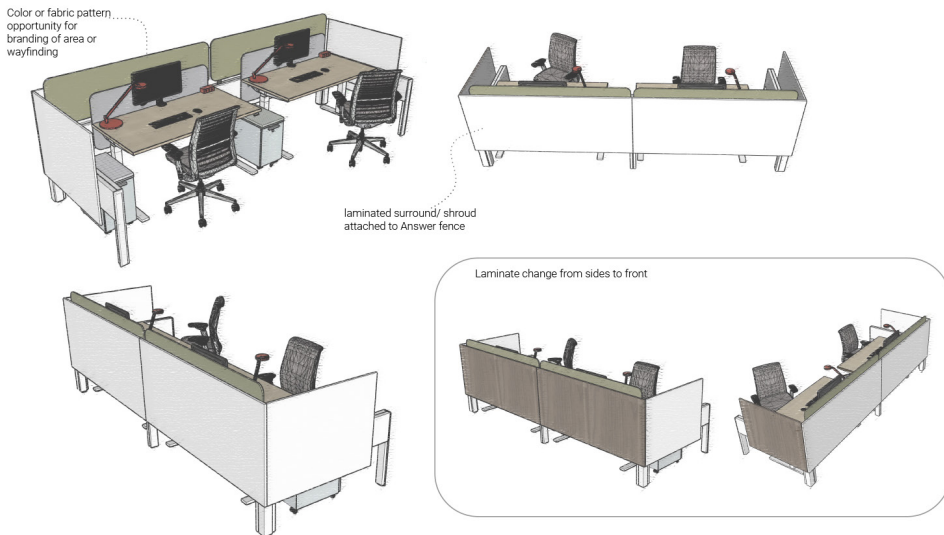

Polyvision Textura Mobile
Blends sound-diffusing acoustic panels with durable CeramicSteel writing surfaces for a multi-purpose collaborative work tool on wheels. These can also be used to divide and create an impromptu team space in the open plan.

Continuous improvement is part of our DNA… it's in how we develop products and how we run our business

- We've built purposeful and intentional partnerships with over 50 brands, expanding our portfolio to create even more welcoming, tech-savvy and authentic environments— all backed by the quality of the Steelcase brand and the unparalleled reach and expertise of our distribution network.

- We're working now to tune the innovative products to healthcare applications, exploring additional partnerships and bridging the product space between healthcare and hospitality, corporate meeting and workspaces.

- We've had our agility tested by the pandemic and have proven our ability to successfully pivot in the face of threats to our business and the businesses of our clients. Throughout the last 18 months, we prioritized healthcare business orders and developed response-driven stocking programs. Our focus on work safety and individual needs has forever changed our outlook on better spaces to work, heal and learn.

We believe business should be a force for good.

Steelcase will always aspire to create lasting value for people – our customers, employees, communities and partners. For over 100 years, leading organizations have trusted us to help them innovate and grow – in business, education and health – by creating dynamic, high-performing places that unlock the promise of their people.

We honor that trust by setting bold goals, keeping our commitments, conducting our business with integrity and helping to build a more sustainable, inclusive and equitable global society. This vision guides our approach to our Environmental, Social and Governance (ESG) priorities.

What matters to us:

Healthy Planet (Environmental): Create products and operations that are good for the world.

Healthy People (Social): Cultivate opportunities for people and communities to thrive.

Healthy Culture (Governance): Curate a culture of trust and integrity.

Carbon Neutral Now. Beyond Net Zero Next.

Sustainability matters

We know that the only way to provide the best products in the world is to ensure that they're the best products for the world.

That's why, every step of the way—through design, manufacturing, delivery and product lifecycle—we consider the impact on the environment and work to uncover opportunities to improve our environmental performance. Kaiser Permanente is recognized as an industry leader in sustainability standards and compliance, with the introduction of EPP in 2018.

We provide you with quarterly reporting on our product mix EPP Chemicals of Concern and Waste compliance based on sales history.

We believe sustainability is a key component to innovation and ensures that we deliver unparalleled value to our customers, our people and our stakeholders.

Love how you work.®
